## NEW GOODS

JUST RECEIVED from New York,  
a general assortment of Staple &  
Fancy dry goods—among them are the  
following viz: Alpaccas, Orleans cloths,  
Mouseline de Laines, Parisiens, French  
Merinos, English do. watered alpaccas,  
alpines, bombazine, Imperial Paris vel-  
vet, plush and silk cravats; hosiery, kid &  
silk gloves, worsted mitts, dark bonnet  
ribbons, velvet neck ribbons, cloths, Cas-  
simeres, Satinets, Beaver cloths, Pilot  
cloths, red, yellow & white flannels; all  
of which are offered for sale at as low  
prices as at any other retail store in city  
or town; at No. 132, by  
**J. M. COOK & Co.**  
Sept. 23d, 1843.

UNTIL further notice the Mail stage will  
leave Providence for Warren, Bristol and  
Newport, every morning (Sundays excepted)  
at nine o'clock, A. M. and arrive in Newport  
at two o'clock P. M. A Mail stage will also  
leave Newport for Providence via Bristol and  
Warren, at 5 o'clock, A. M. and arrive in  
Providence at 2 o'clock P. M. in time to take  
the Stonington Cars for New York, the cars  
for Boston, and the Stages for Woonsocket and  
Cohasset. This is the most direct and expedi-  
tious Stage route between Providence and  
Newport, and passengers taking this line may  
rest assured that every attention will be paid  
to render the ride as comfortable as possible.  
The coaches are in good order—good horses  
and careful and obliging drivers. There is  
now a new horseboat at Bristol Ferry, which  
makes the crossing much more expeditious and  
pleasant than formerly.

Extra horses and coaches furnished in  
either place at short notice.

Books kept in Providence at the Manufac-  
turers and Franklin Hotels; at Coles in War-  
ren, Jones in Bristol, and at Hazard's and  
Townsend's in Newport.

G. R. KINNICUTT, Providence, } Pro-  
S. MASON, Jr. Warren } pri-  
J. CHADWICK, Bristol } tors.  
JOHN G. WEAVER, Newport, }

The Subscriber offers  
for Sale, his House and Lot,  
situated in the central part of  
Broad street, occupied by  
F. Carr.—The House is a substantial,  
well built structure, two stories high, 35  
feet in length, by 30 in breadth with an  
addition to the rear also two stories, high,  
and 18 feet by 12 in dimension together  
with a wood house, rain water cistern,  
and a well of good water. The Lot is  
spacious, being 90 feet on Broad street,  
and running back upwards of 250 feet,  
and covered with a variety of fruit and  
ornamental trees.—The whole forms a  
most eligible residence for a private fami-  
ly, or may for a small amount be conver-  
ted into a convenient Boarding House.  
**WM. G. HAMMOND.**

THE subscriber intending to  
relinquish the business in  
which he has so long been en-  
gaged, offers for sale the estab-  
lishment, in Newport, so well known as the  
**EAGLE HOTEL.**

The house was mostly rebuilt in 1836; is  
93 feet in length, and 35 in breadth; and  
contains four parlors, a large and convenient  
dining hall, and rooms for the comfortable  
occupancy of seventy boarders. Attached  
to it there are a garden, outhouses, stables  
and every desirable convenience. The cen-  
tral position and extensive accommodations  
of this establishment will always secure for  
it a full share of public support at all sea-  
sons of the year. It will be sold with or  
without the furniture. For terms, apply  
to the present proprietor and occupant.  
**THOMAS TOWNSEND.**  
Newport, R. I. Sept. 25-1841.

CIDER—of superior quality, just

received and for sale at the Confectionary

and Variety Store of.

**T. STACY, Jr.**

July 1.

## Original Tale.

### MINICRY.

BY J. C.

One lovely afternoon in June 18—

on the deck of a small steamer speed-

ing on her daily route through Long

Island sound, sat two ladies in earnest

conversation, Mrs. Oakley, the youn-

ger of the two, was a fair bright Hebe-

like woman of twenty, on whose path-

way the shadow, even, of sorrow had

not yet fallen, and her eye shone still

with the happy light of careless girl-

hood, for although a loving wife and

mother hers was not the sensitive, ear-

nest nature to feel deeply the anxieties

or responsibilities of either. Her com-

panion was as unlike her as possible—

On her high, broad brow thought and

genius had set their seal and sadness,

if not care, seemed at home in her dark

eye, the lips were full and with the

small rounded chin and rich carnation

cheek, might have belonged to one in

the very morning of life, and as she

spoke to her friend in a sweet low voice,

many an eye turned lingeringly upon

her, and many a young gallant envied

Mrs. Oakley the society of so lovely a

being.

"I know you would like my sister"

said Mrs. Oakley, "she is so witty so

intellectual and above all, so admirable

a mimic; why, she will exhibit all the

little peculiarities of our friends, some-

times for our amusement, till we are al-

most convulsed with laughter, and so

perfect are look tone and manner we

almost fancy they are really present,

would not you think it amusing, Miss

Ellison?"

"Amusing, perhaps Mrs. Oakley

but I think mimicry the least to be cul-

tivated of all talents (if

his physical infirmities the subject of idle jest and present him to your giddy associates to be laughed at and scorned, you have driven him from his home to die among strangers, and to suffer for every attention that kindness and love would render him. I will not tell you of my own desolate heart, but the hour will come when your own idols are taken away and when you are left in this cold world, (as you will be for thus making me childless) without one being to love or to counsel you, you will mourn over your own thoughtlessness and perhaps learn to desecrate as I do, your only talent, mimicry. I made no reply but left her, crushed under the bitter weight of her implied curse, which has been ever since, a dark shadow from which I cannot escape—she died without recalling it and spite of my mother's earnest entreaties would never see nor speak to me again. For a time it did not much trouble me, for I could not believe she would not forgive me, but when my dear little brothers died in one week, of a prevailing epidemic, I, not remembering that God does not smite one of his children to gratify the malicious vengeance of another, felt that her curse was indeed upon me and every sigh of my afflicted parents seemed a reproach for the misery my sin had brought upon them—My mother did not long survive her boys and I cannot tell you the despairing agony which filled my heart. Then my kind and loving Father as if he could not bear a separation from her who had been the sunlight of his existence, wasted slowly, quietly away and ere one year had passed, rejoined, her, in the spirit-land—Although bowed to the earth with sorrow, yet something whispered to my heart that the curse was accomplished, all had been taken from me but my sweet young sister and she was spared me so long, that I learned to consider her all my own and to be almost happy again possessed of the love of so pure, so holy a being—she was—but you know what she was and how I have mourned her. Ten years have scarcely passed since that fearful woman uttered her curse and I am desolate even as she predicted. Reason in vain assures me that her angry and revengeful prayer would be unavailing with a holy and merciful God, for my heart still replies 'as she said, so is it done unto me, even so, am I punished for my cruel fault.' I have many kind friends, some for my parents' sake, some for my own, old squire Grey is still my professed admirer, and, as his name is seldom mentioned, I suppose Horton Carden is well nigh forgotten by those light hearted beings who witnessed my last effort at mimicry and its mortifying interruption.

Mrs. Oakley remained silent after Miss Allison concluded her narrative, till the evening shadows deepened around, the boat neared the landing and her husband came to see, as he said, what had kept her so long quiet and content—Rising and saying 'I have been to Miss Ellison, eyes, I thank you from my heart for the lesson you have given me and will try to remember and profit by it.' 'And I must thank you, dear Mrs. Oakley for the sympathy and patience with which you have listened to the story of an old maid.'

**An Ingenious Knave.**—A rogue in Albany has adopted a new and ingenious mode of raising the wind. It appeared that on Tuesday night last he obtained the key of an unoccupied residence, under the pretence that he desired to rent the premises. About sundown he ordered two pieces of very fine and valuable silk velvet, from the store of a Mr. Einhart, to be sent to the house, and meeting the clerk who carried them, at the door, said he would take them in to show to his wife and daughters. After a brief interval, the man returned, saying that it was too dark for the family to make a selection then, but that if the velvet should be left till morning, they could probably make up their minds.—Of course the velvet was left there, and on the following morning when the clerk returned to the house, both velvet and purchaser had decamped, leaving the key in the front door, and making their escape by a back passage. The owner of the house could give no information as to his new temporary tenant, nor could the merchant get any clue to the whereabouts of his liberal customer.

**LARGE OXEN.**—The Rochester Post says: "Gen. William A. Mills, of Mount Morris, Livingston county, had a pair of oxen at the cattle show, which weighed six thousand two hundred and fifty pounds."

**Housatonic Railroad.**—The commissioners have given notice that the corporation has failed to pay or provide for the payment of its notes, in pursuance of the requirements of an act of the last legislature, and that therefore they will sell at public vendue, on the 14th day of November next, so much of the property of said company as shall be necessary to redeem its notes.

**Death from the Bite of a Cat.**—The Rockport Sentinel mentions the death of a Mrs. Johnson, with distinct and aggravated hydrophobic symptoms, occasioned by the bite of a cat. She was bitten on both of her feet in May last, and the wounds soon healed. In the latter part of September she felt sharp darting pains in the right foot extending upwards to the body, and in the course of a week the usual symptoms of hydrophobia supervened and death soon closed the scene.

## Late Foreign Intelligence

### Arrival of the Great Western.

#### 4 DAYS LATER FROM EUROPE.

The steamer Great Western, Capt. Hoskin, arrived at New York on Saturday forenoon from Liverpool, bringing papers to Sept. 23d (Saturday) inclusive.

She has 135 passengers, among whom are O. M. Lowndes, bearer of despatches; Mr. A. Morrison Ogilby, B. V. Consul, Charleston, bearer of despatches; and Mr. Van Zant, bearer of despatches.

The news is of but little importance.—The India mail had not arrived.

**Commercial Summary.**—The Acadia took out very encouraging accounts respecting the transactions in cotton. The market, it will be remembered, between the interval of her departure and that of the previous packet, was in a state of extreme buoyancy; but it was a little checked shortly before the Acadia sailed, and at the present moment speculators evince a disposition to draw in, while the demand from the trade is both uniform and large; the latter buy with confidence, and the state of the trade shows a healthy feeling of activity, greater than has been exhibited for a long period. Freights to America by the transient ships have been low of late, though a slight improvement has been visible during the last few weeks. All the transient vessels to N. Orleans, Boston, and New York, have been chartered by good parties, but the goods of foreign have not been numerous. The packet ships to New York have long acutely felt the effects of the hostile tariff on the other side, and the absurd fiscal regulations on this side of the water for the virtual exclusion of grain and flour.

The corn market has of late exhibited more firmness, and an advance of a penny to two pence per bushel has taken place.

*European, Sept. 23.*

**London, Sept. 22.**—With increasing unfavorable reports respecting the yield of wheat, and a gradual improvement in most departments of business, there appears a strong probability of the staple article of food rising in value. The deliveries of wheat from the farmers are already beginning to fall off, and at many of the leading markets in the agricultural districts, held during the week, the supplies have been quite moderate; this, together with the firm tone which the trade has recently assumed at many of the principal consuming towns, has led to an advance in prices, and we consider that really good wheat, whether old or new, has risen fully 2s. per quarter within the last eight days.

**The Queen's return from Belgium.**—The Queen, Prince Albert and the royal suite left Antwerp at 1 o'clock on Wednesday, Sept. 20, and reached Woolwich dead. The royal cortege consisted of carriages, which started immediately for Windsor. At 12 o'clock it was at the Paddington terminus of the grand Western Railway, and the royal party embarked soon after for Windsor.

**Rebecca in North Wales.**—The scenes of outrage in South Wales are about being transferred, many persons fear, to the quiet districts of North Wales. We do not anticipate; from the quiet and inoffensive character of the people in the northern principality, that such a melancholy result is at all likely. But we hear that the neighborhood of Ruthin has been visited by incendiaries, whose doings have caused no little alarm.

Private accounts from Bogota state that Mr. Stewart, the British chargé d'affaires to the republic of New Grenada, (formerly M. P. for Haddington,) died in that city on the 15th July.

A Carmelite nun died on the 27th ult., at Placential, (Spain) aged 108. She lived in the reigns of Philip V., Ferdinand VI., Charles III., Charles IV., and Ferdinand VII. She also witnessed the reigns of nine popes—Clement XII., Benedict XIV., Clement XIII., Clement XIV., Pius VI., Pius VII., Leo XII., Pius VIII., and Gregory XVI. She was 79 years in the cloister.

**Mrs. Gilmour.**—On the 14th Sept. Mrs. Gilmour was taken before sheriff Campbell for examination, and continued under examination till a late hour in the afternoon. What the nature of her declaration may be is known only to officials.—She looks well, seems quite cool and collected, and was dressed in a black silk bonnet. It is confidently anticipated, in well informed quarters, that it will be impossible to prove the allegations against her, so as to obtain conviction.

**Acceleration of the Overland Mail between England and India.**—A large meeting of merchants and others was held in London on the 19th ult., for the purpose of adopting measures to accelerate the dispatch of the India and China mails.

A resolution recommending the employment of steam vessels of superior power between Bombay and Suez, in order to insure the arrival in England of the India mails, before those outward bound are dispatched, was carried unanimously; and memorials therefor were ordered to be prepared, and transmitted by the chairman of the meeting to the Hon. East India Company and the President of the Board of Control.

**Ireland—the new way of paying rents.** The Nenagh Guardian states that about 400 persons, all strangers, had cut down and carried away the whole of the crops on the lands of Cranah, belonging to Mr. Maurice Meagher, who had distrained his tenants for rent. The Carlow Sentinel says:—"On the night of the 5th inst,

between the hours of eleven and twelve o'clock, about fifty men assembled on the lands of Coolmanna, in this country, and cut down about two acres of oats under seizure for rent due to the landlord, Mr. C. Davis, of Clare, county of Dublin.—Mr. Sharpe, the attorney for the landlord, having received intimation of the proceedings, collected some people in the vicinity, who came up in sufficient time to prevent the property being carried off the land." During the last ten days, great numbers of men have assembled, in various parts of the counties of Carlow and Tipperary, and have cut down and carried off crops which were seized for rent. In one instance it is stated that five men were told off to shoot the bailiffs, but we are very happy to learn that these officials, considering "discretion the better part of valor," retreated in time to save themselves.

O'Connell continues as active as ever, and we hear no talk of his speedy retirement to his mountain home in Derry, where, hitherto, at this season of the year, he has been more accustomed to the music of his beagles than to the vox populi. All his energies appear to be absorbed in his present agitation, which leaves him no time for rest or retirement.

Madrid letters to Sept. 16th evince the disquietude of the public mind. The report was, that the ministry, unable to reduce Catalonia, had demanded French intervention. All the troops in Andalusia had been ordered in the direction of Valencia and Barcelona. Coche was to take the command in Catalonia.—Scarcely a single capitalist attended the second meeting called by Senor Salamanca to consider his loan.

From all accounts the greatest confusion prevailed in Catalonia, and almost every town of note was up in arms against the government.

**FRANCE.**—The Paris papers contain the report of a meeting of the wine growers in Bordeaux. The accounts published by the French commerce minister of the progress of French trade in 1842 are by no means satisfactory. The falling off in that year, comparatively with the previous one, in French exports of silk, cotton, and laces is very great.

The National German Gazette of the 9th instant announces that a new conspiracy had been discovered at Warsaw, and that more than 100 persons had been arrested.

It is reported in Paris that the question of the marriage of Queen Isabel II. had been settled at the Chateau d'Eu, between the governments of England and France, in favor of the son of the Infant don Francisco de Paula.

A letter from Marseilles, Sept. 16th, says:—"A most violent storm of rain, thunder, and lightning, burst over this town in the night of the 14th and 15th inst., occasioning an immense deal of damage in streets, shops and houses."

Some excitement was occasioned at Paris on the 17th ult. by the rumored discovery of a reasonable conspiracy, and the arrest of the principals, to the number of six, and upwards. The individuals arrested were, however, all obscure men of the laboring class, and it was thought that the whole affair would terminate in the imposition of penalties by the correctional police, if indeed the parties were not discharged. The utmost tranquility prevailed in the city.

**Unsettled state of Italy.**—Italy from all the accounts, appears to be in a feverish state.

A letter from Rome, dated Aug. 30, in the German National Gazette, contains the following: "Yesterday evening, when the Corso was full, a great number of proclamations were distributed, attacking very violently the system of the pontifical administration, and calling on the people to rouse up from their apathy.—Several arrests have taken place, but as no sort of disturbance had occurred, it may be inferred that the matter went no further."

**Turkey.**—A young Armenian, named Joseph Dukim, was most barbarously executed at Constantinople the other day after being subjected to the rack and other tortures. His sole crime was that, being a convert to Islamism, he had relapsed to Christianity! Sir S. Clanning, the British ambassador, sought in vain to dissuade the Turkish government from the commission of the atrocious deed, and the young martyr refused steadily to purchase life at the price of any concession to Mahomet.

**Constantinople, Aug. 30.**—Letters have been received from Ezeroum to the 21st. On the 14th, a large fire broke out there, and consumed upwards of 300 shops, destroying property to the amount of at least 7,000,000 piastres, a severe loss to so poor a place.

**Greece.**—Gen. Coletti, envoy extraordinary and minister plenipotentiary at Paris, of his majesty the King of Greece, has presented to Louis Philippe his letter of recall.

The Greek government, threatened by the protecting powers, but principally by Russia, with coercive measures, in consequence of her financial delinquencies, has decided, with a view to retrenchment, to recall its ambassadors and ministers plenipotentiary maintained at London and Paris.

**Manifesto of the Spanish Government to the Nation.**—The continued disturbances at Barcelona have drawn from the government at Madrid an explanation of its proceedings, with a view to commend itself more generally to the favor of the nation. The administration claim to have attempted the arduous task of realizing the programme of the first Lopez ministry, one of the most prominent objects of which was to effect an union between all Spaniards, and between all par-

ties, places within legal limits. It claims to have offered participation in all employments for Spaniards, worthy and apt, but preponderance to no party; and, when the balance leaned for a moment to one side, to have restored the equilibrium by favors to the other. It refused to create the central junta, because the junta was to determine in what way the cortes were to be convoked, and this implied the adjournment of the chambers' meeting, when the first necessity was to legalize the present situation, for which the best means were the calling of the chambers. The cortes have been convoked with as short a delay as possible, and the representatives of the people will soon change into a normal situation the present anomaly.

The government declares its intention to combat retrograde tendencies, as well as to oppose and neutralize exaggerated progress and disorganization. As to reaction in favor of persons condemned by the public will, it promises to repress and chastise them—and against those who preach division, it will exert all its efforts for union, as the basis of present peace and future prosperity.

## By the Halls.

**The brig Effort, Capt. Koopman,** bound to Port Leon, while passing the Narrows, from New York, Oct. 7, took fire and burnt to the water's edge. She sunk near the shore on the Long Island side. She had a valuable cargo on board, and was insured at several offices in Wall street. Capt. James Bennett, of Fort Hamilton, J. McGee and J. Silva, both of Staten Island, were seriously hurt, and several others more slightly. The captain had his wife on board, who, with Mr. T. B. Nathans, the only passenger, had fortunately gone on shore as soon as the brig struck. So rapid was the progress of the flames, that it was impossible to save a single article from the cabin, and those belonging to lost every thing except the clothes in which they stood. The fire is supposed to have been caused by some barrels of liquor under the cabin.

**Explosion.**—Yesterday morning, at 8 o'clock, the steam boiler of the City India Rubber Company, in William street, exploded with such force as to drive it through the side of the building and into the yard of a house about two hundred feet distant. The heavy boiler, after passing through the building, struck the corner of a small house, and its course being altered, struck the other corner, tearing away the clapboards and planks each time, and passing on through a fence and hog pen, full to the ground. The planks and timbers of the building were thrown with great force in the other direction and to about the same distance. Fortunately no life was lost, and no one was very severely injured, although the factory is close to a number of dwelling houses, and several females were in it at the time of the explosion. The building sunk, owing to the withdrawal of the supports which were blown away, and the door could not be opened in consequence. The females jumped out of the window and several were slightly injured by it. It is wonderful that so terrible an explosion should have caused so little damage, or injured so few persons. The house against which the boiler struck, is occupied by James Bond and Mrs. Jones, (colored people.) No one was in it at the time, except some children who were in the cellar. The building and engine belonged to Josiah Chapman, the works to Messrs. Holder, Whitman and Brown. The damage from \$1,000 to \$2,000. The boiler was an old one and had been used in another establishment before it was used in this. A boy was standing on a shed which was directly over the boiler. The shed was blown away and completely disappeared, and the boy found himself in a garden fifty feet off, and wholly uninjured.

*Providence Journal of Tuesday.*

**Scindian Drinks.**—Bang (hemp seed mixed with water) is the intoxicating beverage with all the lower classes, because it is cheap. The Scindian takes his draught of this nauseous preparation with all the gusto that distinguishes an Englishman and his glass of grog. Those who can afford it drink spirits distilled in the country from dates or sugar.—The royal potation, however, is curacao, or any of the French liqueurs. On many occasions the Paris' shops, established on the Indus at the British military stations, were completely gutted of these articles, to answer the demands of some of the Amerees, so fond did they become of these more palatable preparations.—The Hindoes are not a whit behind their Mahomedan neighbors in this vice, so unusual in the East. Yet it is very rare to see an intoxicated person; the effect is great excitement, and the Biluchitere going into action are always stimulated by bang. A certain madness then takes possession of them, and they become desperate, combining frenzy with fanaticism.

*Postans on Scindh.*

**Steamboat Clipper.**—Swain has exhibited to the N. O. Republican his memorandum book, by which it appeared that he examined, on the 11th of August last, at the request of Mr. Bessy, the boilers of the Clipper; and that the result of his examination was, that he found them in good order, and in his opinion perfectly safe, notwithstanding those boilers had been five years in use.

Capt. Swain moreover gave it as his opinion that the disaster on board of the Clipper arose through negligence in not keeping up a due supply of water in the boilers.

Correspondence of the New York Tribune.

PITTSBURG, Oct. 6, 1843.

A serious disaster occurred to the steamer Muskingum Valley, about 45 miles below this city, near Liverpool, Ohio.—The boat stopped to take a flat in tow, and while the hands were employed in endeavoring to make it fast, a flaw of the starboard boiler collapsed, scalding three men. Two of them jumped, or were blown overboard, and were drowned; the other expired in the afternoon, suffering great agony. The names of the injured individuals were William Baker, of New York; Daniel Coffin and G. Franer, of Ranesville. Neither boat nor cargo were much injured. Somebody is to blame; but nobody, as usual, is willing to have it laid on their shoulders.

**The steamer Narragansett.**—It will be perceived that this noble steamer, after having undergone very extensive alterations and repairs, is this day placed on the Line, via Stonington, under the command of Capt. Constock. New foundations of the firmest description have been supplied to her powerful engine, which in several important particulars have been renewed with great solidity and strength, and new boilers on the most approved plan to burn Anthracite coal substituted for those she had previously on board. A thorough overhaul has been made of her hull, her copper stripped off and the boat recaulked and recoppered, and she is now in very superior order for any service, in summer or winter. A thorough trial of her was made the other day on the North River, when she performed to the entire satisfaction of her owners. State rooms have also been added to her extensive accommodations.

*N. Y. Courier and Enquirer.*

**Obscene Pictures.**—A suit was yesterday decided in the United States District Court, instituted by the United States for the confiscation of an invoice of looking glasses, toys, and snuff boxes, under the act prohibiting the importation of obscene prints, paintings, &c. The obscene pictures were attached to the false bottoms of nine snuff boxes, forming part of the invoice, and imported from Germany in September, 1842. By the verdict the whole invoice is confiscated, though the snuff boxes were contained in but one of five cases—such being the language of the act.—*N. Y. Sun.*

**Croton Water Exploded.**—The Courier & Enquirer says:—"On Thursday night the main pipe for the Croton water in Canal street, near the corner of Greene street, burst with a tremendous explosion, and before the water could be shut off, all the cellars in the vicinity were overflowed.—More damage, we learn, was done than by any previous occurrence of a similar nature."

A man about being lowered into a well at Buffalo, by the carelessness of the individual at the windlass, was precipitated to the bottom, a distance of 50 feet. He was so little hurt that he scrambled out and gave the windlass man an unmerciful flogging.

**DREADFUL EXPLOSION.**—Laffin & Smith's powder mills, near Saugerties, N. Y., containing 500 or 600 pounds of powder, blew up on the afternoon of Oct. 4th, and Hiram Norcott, John Cash, Virgil Lown, Hotchkiss, a boy of James Cash, and a Swiss, name unknown, were killed. The largest portion of a body that was found was the foot and a part of the leg of a man, thrown several hundred feet from the mill. The boarding house and several other buildings near by were more or less injured. The foreman was indisposed, and the person having charge of the packing and drying house is supposed to have been intoxicated. The report of the explosion excited considerable alarm at Catskill, 7 miles distant, many persons taking it for an earthquake.

**The Chavis Murderers.**—The St. Louis Republican of the 29th mentions the arrival at that city of the two McDaniels, Dr. Prefontaine, McCormack, Brown, Morton, and Harris. They have been remanded for trial in April next. Dr. Prefontaine has been sentenced to pay a fine of one thousand dollars, and to be imprisoned one year in the County jail of St. Louis County, that being the extent of punishment awarded in such cases.—The jury in the case of Morton, McCormick and Harris could not agree, and were discharged. They will undergo trial again at the April term. Harris and Morton have been admitted to bail, and McCormick will give bail in a few days. Thomas Towson, Mason and Berry, (the two latter used as witnesses, on the part of the Government,) were recommended to the mercy of the President, by the Grand Jury, in which the Judge and the District Attorney concurred.

**Reed the Forger.**—Mr. Lowndes returned in the Great Western, and the probability is, that Reed will soon be surrendered by the British government, to be brought to this country for trial.—He seems to have plenty of money. A deposit of \$6,000 has been discovered to his credit in one of the banks, making \$18,000 which has been found in a tangible form, and will probably be restored to those who were swindled by the rascal.

*Journal of Com.*

**A Lady Fined under the Martial Law.** A lady in New Orleans, having disobeyed that clause of the Martial Law which makes it obligatory upon a housekeeper to give the name of any person liable to militia duty in his or her employ, or who dwells or boards in his or her house, whose names may be asked, has been fined, and the Court has actually granted an execution upon her property to satisfy the claim.

**Burning of the U. S. steamer Missouri.** The official report of this disaster, received at the navy department, states the breaking of a demijohn of spirits of turpentine, and the ignition of the liquid, as the cause.

Mr. Elijah W. Cutting, who has been for many years a Messenger to the House of Representatives, and one of the watchmen entrusted with the care of the State House, left his house early on Friday morning, probably in a state of derangement, and has not since been heard of. He was last seen at about 5 o'clock in the morning, walking rapidly towards Warren Bridge, and apprehensions are entertained that he may have destroyed himself. This apprehension is increased by the fact that on Thursday evening, while he was at the State House he was seized with a fit, from which he recovered. It is supposed he may have been injured from his fall. He went home about 9 o'clock, and without informing his family of his illness, went to bed. Early in the following morning, he got up, and leaving his watch and best clothing, with the money which he had in his pocket, dressed in ordinary clothing and slippers, went out, as above stated, and has not since been heard of. He was a man remarkably regular in his habits, and there is no reason from his family, or other circumstances, to account for his disappearance, but that of temporary alienation of mind. His family are much alarmed at his unaccountable absence, and will thankfully receive any information which can be given of him. They reside at 100, Cambridge street.

*Boston Daily Advertiser.*

**Baltimore County Court—Case of Damages.**—A case of considerable interest has been progressing in the above Court since the 30th ult., which was decided this morning.

The action was brought by Mr. Ira Frye, against Lucius W. Stockton, proprietor of the national road line of stages, for damages sustained by the upsetting of one of Mr. Stockton's stages, in which plaintiff was a passenger, between Hancock and Cumberland in the month of September, 1839.

The case, after having been fully and ably argued by Reverdy Johnson and Lemuel Williams, Esqrs. counsel for the plaintiff, and Wm. Schley and Charles H. Pitts, Esqrs. counsel for the defendant, was given to the jury who returned a verdict this morning, awarding to the plaintiff \$3000 damages.—*Balt. Ad.*

Correspondence of the New Haven Courier.

MIDDLETOWN, Friday noon, Oct. 8.

The examination of the suspected murderers of Mrs. Bacon has closed, and, as I expected, Bell and Roberts have been committed for trial at the next sitting of the Superior Court; but, contrary to my anticipations, Hall shares the same fate. From the testimony brought forward, I cannot conceive it possible for any one to believe him guilty. There appears, however, a determination on the part of many—such is still the feeling in this community in relation to the dreadful affair—to hang all the prisoners; but unless something more is brought to light before the Supreme Court meets, the Grand Jury will not, in my opinion, find a bill against them. Although some of the testimony was strong against the prisoners, it was not such as we have heard in the streets from day to day. The blood on the clothes and the cut on the hand, amounted to a mere scratch or a few stains.

The decision of the Court was received by the prisoners with a great deal of composure, and by the citizens present with much apparent satisfaction. Of course a large number believe them guilty and the opinion prevails that Bell will turn State's evidence.

**A Scorpion in Logwood.**—A man called on Dr. Devan on Monday morning in great anxiety, bringing with him a scorpion four inches long, that came out from the hollow end of a stick of logwood which he was sawing, and bit one of his fingers. The finger was a good deal swollen and the inflammation was rapidly increasing. The circumstance shows that some caution is necessary in dealing with hollow wood from the climate of waters.—*Jour of Com.*

Christina Gilmour, the young Scotch woman who was demanded under the new treaty with England, on the charge of having murdered her husband, arrived at Liverpool, in the packet ship Liverpool, on Monday, the 12th ult. She was confined in the Bridewell during the night, and the next day took her departure for Glasgow.

**SINGULAR DEATH OF A CHILD.**—An interesting child about six months old, daughter of Dea. Moses Wheelock of this town, lost her life on Tuesday in a most singular manner. An attendant left the room where she was lying quietly in bed, and returning in a few minutes, the child was found to have crept to the side of the bed near the wall and slid off. Her body passed between the bed and the ceiling through an aperture not big enough to admit her head and she remained suspended by the chin until life was extinct.

*Barre Gazette.*

Mary Pierce, aged 61 years, wife of Wm. H. Pierce, committed suicide at Brooklyn on Friday. Deceased reproved her son for staying out all the night previous, and some angry words passed between them when her son left the house. She returned to her bedroom, and after remaining there about 15 minutes, came out and said she had taken laudanum, and had done with this world.

The hogs are about to "suffer some" in Alton, Illinois, this season. One house has made preparations to kill and cut up 500 per day.

He that trusts to his own wisdom preclaims his own folly.

State Elections.

MARYLAND.—The election in this State, took place on Wednesday the 4th inst. Forty-seven Whigs have been elected to the House of Delegates, being a majority of twelve. The next Legislature will stand:

Table with 2 columns: Whigs, Democrats. Rows for House of Delegates, Senate, and Whig majority on joint ballot.

Upon this body will devolve the election of a United States Senator, in place of Mr Kerr, whose term expired in March last.

GEORGIA.—The first election, under the amended Constitution, was held on Monday the 2d inst. throughout the State, for Governor and members of the Legislature, whose term of service will expire in October, 1845. At the same time an election took place for two members of Congress, to fill vacancies in the Georgia representation.

The candidates for Governor are G. W. Crawford, (Whig,) and Mark A. Cooper, (Dem.)

A. H. Stevens and A. H. Chappell, are the Whig and H. N. Johnson and J. H. Stark the democratic candidates for Congress.

The following is the result of the election for Governor in 70 counties, viz: For Crawford, (Whig,) 30,018 Cooper, (Dem.) 25,254

Majority for Crawford, 4,764 Twenty-three counties yet to be heard from—most of which gave Democratic majorities in 1841. There is, however, little or no doubt of the election of the Whig candidate. The Whigs have probably also elected the two members of Congress and will have a decided majority in both branches of the Legislature.

PENNSYLVANIA.—The election for 24 members of Congress, Canal Commissioners, members of the Legislature, &c. was held on Tuesday last.

In the city of Philadelphia, Scott, (Whig,) is re-elected Mayor by a majority of 3,600, being a gain of 1,601 upon last year. The Whig Assembly ticket is elected by about the same majority.

In the county of Philadelphia, the Democratic Senate and Assembly ticket is elected.

The officers which are elected jointly by city & county, consisting of Sheriff, Treasurer, Auditor and the County Commissioners, are believed to be Whig, throughout.

For members of Congress—1st district, E J Morris, (Whig) is elected by a majority of 426 over Messrs McCully and Croasillat, (Dems.)—2d district, J R. Ingersoll (Whig,) is elected by a majority of 2,261 over J. C. Neal (Dem.)—3d district, J T Smith, (Dem.) is elected by a majority of 799.—4th district, C J Ingersoll, (Dem.) is elected by a majority of 450 over Connard, (Whig.) Jacob C Yhost, (Dem.) is elected in the district composed of Delaware and Montgomery. M H Jencks, (Whig,) is elected in Bucks and Lehigh.

In Chester district, McIlvain, (Whig,) is elected. In the 14th district, composed of Dauphin, Lebanon and Lehigh, the result is doubtful. Dauphin gives Ramsey, (Whig) 724 majority, while Lehigh gives Umberger, (Dem.) 800 or 900 majority.

NEW JERSEY.—The election in this State for members of Congress and the State Legislature, took place on Tuesday and Wednesday last. Both branches of the Legislature will be democratic.—As the choice of Governor devolves on the Legislature, every branch of the State Government will consequently be Democratic.

Of the three members of Congress, known to be elected, two are Democrats and one an independent Whig, elected in opposition to the regular Whig candidate. The N. J. Journal of Commerce of Thursday evening, gives the complete returns of the Legislature; the result is as follows:— Council.—12 Democrats, 6 Whigs. Assembly.—35 Democrats, 23 Whigs. Congress.—3d district, Isaac G. Farlee, (Dem.)—4th district, Littleton Kirkpatrick, (Dem.)—5th district, William Wright, (irregular Whig) are elected. Two districts to be heard from.

SUPREME COURT.—The Supreme Judicial Court of this State is now in session at Providence, they were engaged on Tuesday last in the trial of an indictment against Benj. G. West and Wm. H. Potter, for highway robbery. It will be recollected that these cases are connected with the late disturbances in this State.—The Case was given to the Jury after a charge from the Chief Justice at a few minutes past five o'clock, and after an absence of about an hour, they returned with a verdict of "NOT GUILTY."

The prisoners were defended by John Whipple and E. H. Hazard and the prosecution was conducted on the part of the State, by Jos. M. Blake, the Attorney General.

John Williams, Esq., late of this town formerly Cashier of the Newport Bank, has been elected Cashier of the City Bank in Boston, in place of Elihu Williams, Esq., resigned.

BOY'S AND GIRLS' MAGAZINE.—The October number of this monthly is received. It appears in its accustomed neat typography, and is embellished with a number of engravings. The contents are various and interesting.

MERRY'S MUSEUM for October, has been received. It is embellished with a number of engravings.

WISCONSIN.—Gen. Henry Dodge, the democratic candidate, is elected delegate from the territory of Wisconsin, by a majority, says the Milwaukee Courier, of from 1500 to 2000.

Original Tale.—Our readers will find on our first page, an interesting and instructive original tale, for which we are indebted to the pen of a gifted young lady, in this vicinity.

From the N. Y. Com. Adv. of Monday afternoon.

A STORM.—On Saturday evening we were visited by a severe gale, which continued throughout the night and the whole of yesterday. The steamboat Massachusetts, which left here at 5 p. m. with the Eastern mail, anchored off Huntington until daylight, when she returned to the city, having met with an accident to her machinery.

The Worcester, which left at the same hour for Norwich, broke her shaft in the gale on the Sound, and her passengers were brought back to the city by the Curtis Peck.

The Narragansett, Capt. Comstock, was immediately prepared to take the place of the Massachusetts, and the passengers for the Eastward were despatched by her.

The steamboat Rhode Island, Capt. Thayer, left Stonington at the usual hour on Saturday, but the gale was so strong that the captain put into New London, where he remained till 6 o'clock last evening. The steamboat New Haven, from Norwich, was detained at New London, and left in company with the R. Island. They both arrived here at about 4 o'clock this morning.

Fever in Washington, N. C.—For four weeks past, the town of Washington has suffered under the ravages of a disease approaching in its symptoms the yellow fever. The North Star of the 6th inst., the first paper published for 3 weeks, gives a list of twenty deaths in that time. The intense heat of the weather has increased the distress and mortality, and the town was almost deserted by the inhabitants. The following paragraph, however, of the latest date shows an improvement.

We are happy in being able to state that, with the exception of one or two cases, those who are now sick are recovering. There have been no new cases for five days. The weather is quite cold, and we hope to be able to announce next week, that the town is free from the disease that has worked such sad havoc amongst us the month past.

BOUND FOR NAUVOO.—Three wagon loads of Mormons or Latter Day Saints, from New Salem, passed through this town on the 30th ult., on their way to Nauvoo, Ill. They were in covered wagons and had their tents and cooking utensils with them. It is their intention to travel all the way in their wagons—camping out nights and doing their own cooking. The company numbered fifteen or twenty persons in all, and had excellent horses and every thing in prime order for a long journey. [Northampton Courier.]

Melancholy Accident.—A young man named Thomas Carberry, an Irishman, met a shocking death, on the afternoon of Monday last, at Mr. Tingley's marble yard, South Main street. He was engaged in removing a heavy block of marble, weighing upwards of two tons. Some obstruction occurred, which caused him to look under the stone to find the cause, when the whole mass, which had rested on a jack, fell upon his head, and caused his immediate death.—Providence Herald.

Benj. Rathburn, the celebrated forger, was liberated from his long imprisonment at Auburn, New York on the 3d inst. It is said he intends taking a farm in Wisconsin.

ANTARCTIC DISCOVERIES.

The English government discovery ships Erebus and Terror, under the command of Captains Ross and Cozier, returned to England in the beginning of last month, after an absence of nearly four years, having within that period, within the three last successive seasons, penetrated within the Southern Polar Circle, and at each time made discoveries of greater or less interest. Some account of all these discoveries has before reached us, with the exception of those of last Winter, of which Captain Ross brings to Europe on his arrival the first report.

The London Literary Gazette gives a condensed narrative of the whole of the four years' voyage, with a sketch of the various discoveries. The cruise of the last winter commenced on the 17th of Dec. 1842, when the two vessels sailed from the Falkland Island. On the 24th they saw icebergs, in the latitude of Clarence Island. The next day their progress was arrested by a solid pack of ice, and they cruised along the edge of it, for the purpose of finding a penetrable part, and on the 25th they discovered land.

They cruised along the coast towards the south-west, the shore being lined with an accumulation of grounded icebergs, and the land, which they could not approach nearer than within 3 or 4 miles, covered with snow and ice, terminating at the sea in perpendicular cliffs of 20 to 30 feet in height, from which icebergs were constantly breaking away, and becoming grounded in the water. On the 4th of January they were beset with more ice in lat 64 1 4 south, and drifted back to the northward. The next day they were extricated, and they succeeded in landing on an island in latitude 64 12, longitude 56 49 W., on the south side of a deep gulf, which they took possession of in the Queen's name. It is of volcanic origin, and though not more than 2 miles in diameter, projects a perfectly formed crater to the height of 3500 feet above the level of the sea. On the west is a mountain which rises to the height of 7000 feet, and the western shore of the consist of mountainous ranges covered with perpetual snow. They named this gulf, which is 40 miles between the Cape, the Erebus and Terror. They coasted along the shore to the southwest, between it and a chain of grounded icebergs. They were engaged in a constant struggle with the ice on the 4th of February, when they found themselves in clear water, after being entangled 40 days. In lat 65, they merely crossed Weddell's returning track and found pack ice where he found clear sea. They could not penetrate beyond lat 65 15 south, being then 100 miles south of D'Urville's track, where he attempted unsuccessfully to follow Weddell's track.

On the 22d of February, they crossed the line of no variation in lat 61 and lon 24 W., in a dip of 57 degrees 40 minutes; a fact, the narrative remarks "of much importance to magnetic science, since the observations appear to prove that the supposition of their being two magnetic poles of verticity in the south (as is well known to be the case in the north) is erroneous, and that there is in reality but one magnetic pole in the southern hemisphere. On the 23d they rounded, the last extreme of the pack, and standing to the southeast, crossed the Antarctic Circle, March 1, in lon. 71-2 West. In lat. 68 34, lon. 12 49, he was becalmed and seizing the opportunity to try soundings, he found that 4000 fathoms of line would not reach the ground.

They persevered in an effort to get further South, but the ice opposed their progress. They then encountered a tempestuous gale which lasted three days, and they were in considerable danger, from the number of icebergs, and the darkness of the nights. The conduct of the men was admirable. On the 8th the wind shifted to the eastward, and the ships directed their course to the northward. On the 12th they were in safety. On the 17th they reached the latitude and longitude assigned to Bouvet's Island but could not find it, and they concluded that Bouvet had been deceived by an iceberg. They bore away for the Cape of Good Hope, which they reached April 4. At the end of April they sailed again, and after touching at St. Helena and Ascension, for the purpose of repeating the magnetic observations before made at those Islands, proceeded to Rio Janeiro, and thence, as above stated, to England.

Boston Advertiser.

Yellow Fever patients admitted at the Charity Hospital, New Orleans, Oct. 3d 16; discharged, 10; died, 9. Interments of persons who died of yellow fever at New Orleans, during the week ending Sept. 30, 118.

At Mobile, 22 cases of yellow fever were reported to have occurred during the 45 hours ending at 6 P. M. October 4th.

BRIGHTON MARKET, Monday, Oct. 2. Reported for the Boston Daily Advertiser.

At Market, 1250 Beef Cattle, 700 Stores, 4800 Sheep, and 2250 Swine. Several hundred Swine unsold. PRICES.—Beef Cattle.—We quote to correspond with last week, viz: a few extra at 4 50; first quality \$4 a 4 25; second quality 3 75; third quality, 2 50 a 3 50. Barrelling Cattle.—Several lots of barrelling Cattle were purchased at about the following prices, viz: Mess 3 12 1 2; No. 1, 2 50; No. 2, \$2. SALES AT AUCTION.

Valuable Estates for Sale.

PURSUANT to authority legally granted by the Hon. Court of Probate for the town of Newport, there will be sold at Public Auction on the premises, on Tuesday, the 7th of November next, at 11 o'clock, a. m., all the right, title and interest which William Turner, late of said Newport, physician, dec., had at the time of his death, in and to the following estates situated in Newport aforesaid, viz: a lot of land with the large well built and commodious dwelling house and other buildings thereon standing, bounded easterly on Thames street; northerly on a passage way; westerly on the Cove; and southerly on the Cove; and a valuable lot of land fronting on Tanner street, containing between one and two acres.

HETTE F. TURNER, Esq.

by HENRY Y. CRANSTON, Attorney.

Newport, Oct. 7, 1843.

On the day above mentioned, and at 10 o'clock, a. m. I will sell on the premises, at Public Auction, that valuable estate situated on Easton's Point, and next north of the estate on Washington street, formerly owned and occupied by the late Thomas Dennis, Esq. consisting of a large lot of land extending from Washington street to the harbor, with a large, well finished dwelling house thereon. This estate was conveyed to the undersigned by Peter Turner, Esq. to be sold, and the proceeds thereof to be appropriated towards the liquidation of the claims against the estate of his father, the late Dr. Turner.

HENRY Y. CRANSTON, Trustee.

Newport, Oct. 5, 1843.

Free Trade and No Monopoly!

Court of Probate, Newport, Oct. 2d 1843.

THE Executor of the Estate of Sarah Babcock, late of Newport, widow dec., presented his first account for allowance.

It is ordered, That the same be received, and the consideration thereof referred to a Court of Probate, to be holden at the Town Hall, in Newport, the 1st Monday in November next, at 9 o'clock A. M. and that previous notice be given by publishing a copy of this Order 3 several times in the Newport Mercury, for all persons interested to appear at said time and place, and be heard. By Order, E. B. HOWLAND, Probate Clerk.

Court of Probate, Newport, Oct. 2d, 1843.

WHEREAS the Administrator's 2d account on the estate of

WILLIAM BARBER,

late of Newport, Printer dec. was presented for allowance and an order of distribution of the balance,

It is Ordered, That the same be received and the consideration thereof referred to a Court of Probate to be holden at the Town Hall in Newport the 1st Monday in November next, at 9 o'clock A. M. and that previous notice be given by publishing a copy of this order three several times in the Newport Mercury, for all persons interested to appear at said time and place and be heard. A true Copy—Witness B. B. HOWLAND Probate Clerk.

Court of Probate, Newport, Oct. 2d.

THE petition of David Melville for himself and as attorney in fact to Elizabeth Townsend, dec., Eunice Bush, dec. and Sally A. Clough, wife of John Clough, praying this Court to order Notice to be given that the heirs at law of Elizabeth N. Banister, late of Newport, widow, dec., appear before this Court on the first Monday in November next, then and there to prove their several and respective rights to distributive shares of so much of said Elizabeth's estate as is intestate. The same being read, It is ordered that Notice issued accordingly:—

Now therefore Notice is hereby given to said David Melville, Elizabeth Townsend and Eunice Bush's legal representatives, and to John Clough and Sally A. Clough, and to all and every other person interested in the estate of said Elizabeth N. Banister as heirs at law of said Elizabeth, to appear at a Court of Probate to be holden at the Town Hall in Newport on the first Monday in November next, at 9 o'clock, a. m., then and there to prove their several and respective rights to distributive shares of so much of the estate of said Elizabeth N. Banister, as is intestate, and it further ordered that said David Melville for himself and others for an executor of distribution of the balance of said Executors 4th account be and the same is postponed for consideration to the said time and place.

A true copy, attested B. B. HOWLAND, Probate Clerk.

### FORGETFULNESS.

BY J. R. LOWELL.

There is a haven of sure rest  
From the loud world's bewildering stress:  
As a bird dreaming on her nest,  
As a deer hid in a flower's breast,  
As a sleeper in the rosy west,  
So the heart sleeps  
In thy calm deeps,  
Serene Forgetfulness!

No sorrow in that place may be,  
The noise of life grows less and less:  
No moss far down within the sea,  
As in white lily caves a bee,  
As life in a hazy reverie,  
So the heart's wave,  
In thy dim cave,  
Hushes, Forgetfulness!

Duty and care fade far away,  
What toil may be we cannot guess:  
As a ship anchored in a bay,  
As a cloud at summer's noon astray,  
As water blooms in a breezeless day,  
So 'neath thine eyes  
The full heart lies  
And dreams, Forgetfulness!

### A Chronological Account of all material Occurrences from the first settlement of RHODE ISLAND.

1718.

Samuel Cranston was re-elected Governor and Joseph Jenkes Dep. Governor. An act was passed constituting the Governor for the time being, Captain-General, and Commander in chief of and over the Military forces of the Colony.

A new Militia law passed, and also a Law giving the Governor power to impress vessels and crews, and all other things necessary for a service of 10 days only, at one time, to be employed in the protection of the sea coast, against Pirates or Privateers in war, or against Pirates in time of Peace.

The law was repealed which gave to the eldest son of an intestate, the whole of the real estate of said intestate, and the eldest son was allowed to take only a double share and other children each a single share of such estates. Persons dying without heirs, their estates to go to the towns of which they were inhabitants.

William Dyer, was executed at Newport for the murder of his wife.

The celebrated Col. Benjamin Church,\* so distinguished in the Indian war died at Little Compton on the 17th of January in the 78th year of his age.

Col. Benjamin Church, was born at Duxbury (Mass.) in 1639. He removed from Duxbury to Scituate (now Little Compton) in 1674 being the first white settler of that town. A residence among the Indians gave him a knowledge of their character, and enabled him to counteract the designs of Philip King of the Wampanags, and to prevent the Indians in that quarter from joining him. On the breaking out of the war, he received a Captain's Commission from the Governor of Plymouth, and was soon actively engaged against the enemy.

He attended Gen. Winslow, as a volunteer in the Narragansett expedition, and was badly wounded in the attack on the Indian Fort. After his wounds were healed he accompanied Gen. Winslow on an expedition into the Narragansett country. He was soon after sent against the different parties of Indians belonging to Philip and soon discovered and took a large party near Middleborough, the same week he took another large party near Mumpston pond. Hearing that Philip was still hovering around Taunton, he marched against him, killed many of his party and captured 173 prisoners among them was the wife & children of Philip, who narrowly escaped himself. Capt. Church now traversed the country in all directions in pursuit of the enemy, and succeeded in killing or capturing great numbers of them. These incessant marches, sleeping on the ground &c. enabled his strength; he therefore returned to Rhode Island intending to rest awhile, but news soon came, that the enemy were at Mount Hope, he immediately set off in pursuit and soon discovered Philip in a swamp who in endeavoring to escape was shot through the heart, by an Indian belonging to Church's party. About 130 of the enemy were killed or taken. Annawan, Philip's chief Captain, however with great part of the company escaped. The body of Philip was by order of Capt. Church, beheaded and quartered, his head was sent to Plymouth, where it was exposed on a gibbet twenty years, one of his hands was sent to Boston and the rest of his body hung on four trees.

Capt. Church, was soon after, sent against Annawan, an aged & celebrated warrior who had been Philip's chief Captain, who was now spreading terror in Rehoboth and Swansey; having secured a guide he was led to the spot where he surprised and made Annawan and his followers, prisoners, without bloodshed. He soon acquired the confidence of Annawan who presented him with the belt and ornaments that had belonged to King Philip; they spent the night in conversation, Annawan giving an account of his mighty successes in former wars when he fought under Wosamqua the father of Philip. Capt. Church returned home taking Annawan with him. He was soon after sent against Tispaquin, a celebrated chief who was doing mischief near Rochester; Capt. Church pursued, and killed or took a number of the enemy and soon induced the Chief to surrender under a promise that he should be employed against the eastern Indians. Capt. Church soon after went to Boston and on his return was extremely afflicted to learn that the Government of Plymouth during his absence had caused both Tispaquin and Annawan to be beheaded.

Peace being restored, Capt. Church settled at Bristol, afterwards removed to Fall River and from thence returned to Little Compton, in each of these places, he acquired a good estate.

In 1689 the Indians at the eastward again commenced hostilities when he received from the Governor of Massachusetts a Major's commission and was sent with 250 men with which he landed at Casco, defeated the enemy and reinforced the Garrisons after which he returned home.

The next year with 350 men he drove the enemy from Androscoggon and Maquisit.

In 1692 he accompanied Gov. Phips, on an expedition to Penobscot.

In 1696 he went on an expedition to Nova Scotia. The French and Indians fled from their settlements and a large quantity of warlike stores and provisions were taken.

His last military adventure, was in 1704 when having received a Colonel's commission and the command of 10 Companies, he sailed for the eastward and at Penobscot took or killed every Frenchman and Indian that could be found. Thence he proceeded and drove the enemy from Pemaquid and captured the town of Menas, in Nova Scotia. This expedition terminated his military career and the remainder of his life was passed in peaceful pursuits. He died at Little Compton on the 17th of January 1718, at the age of 78 years. His death was occasioned by a fall from his horse which ruptured a blood vessel.

He left 5 sons and two daughters. His eldest son Thomas settled at Little Compton, Charles at Bristol, Edward at Newport, the others in Massachusetts.

## Agricultural.

MILK AND MILCH COWS.—A writer in the Cincinnati Chronicle, who seems to be perfectly at home on all matters pertaining to milk or milch cows, expresses his or her views as follows:

In selecting the best cows for milk, they should be of the middle size, or upwards, with a mixture of Durham, say one-half or three-fourths, and from a good and healthy stock; and never allowed to come in under three years old, for they do not acquire their full growth until that period.

Most persons are in the habit of keeping too many cows; one good cow, well taken care of, is much more profitable than three or four, kept in the ordinary way.

In order to sustain my position, I will state a fact, relative to my own method of keeping cows, and leave the public to judge of its utility; I have a fine large three-fourth Durham cow, six years old; after supplying my family with an abundance of milk and cream, and giving the second day's milk to the calf, which I am raising, and is now two months old, my family made, the last week in November, (and a very cold week too,) nine pounds of as sweet yellow butter, as ever I saw in June.

I keep my cow in winter, in a warm dry stable, and under no circumstances allow her to be out in the cold rain, either night or day. I keep her well bedded with straw; give her as much pure water as she will drink three times a day, at which time I feed her with as much good fine hay as she needs, and no more than she will eat up from time to time; I also give her a peck of sugar beets, well cut up. I find potatoes, to answer a good purpose, when I have not the beets, but will not make so yellow and sweet butter. Corn and corn meal I find will not answer the purpose, as it is sure to dry up cows; they should have salt two or three times a week.

## CANCERS, WENS AND TUMOURS.

Cured without the use of the knife.

DANIEL HARDY continues to practice with roots and herbs, for the cure of the above named and other disorders which flesh is heir to. Ample references to those who have been cured by him, within eighteen months, past.

Middletown Sept. 23 1843.

### REFERENCES.

Gideon Peckham cured of a Wen and Cancer. James Wyatt, wife cured of insanity. Geo. P. Anthony, cured of Salt Rheum. Peckham Anthony cured of a Wen. Sarah Anthony, cured of a Dropsy. Zoia Peckham and her son, cured of Cancer. And upwards of 200 more references for cures can be given.

### Commissioners' & Administrator's Notice.

THE subscribers having been duly appointed by the Hon. Court of Probate of the town of Newport, Commissioners to receive, examine and allow the claims of the creditors of the estate of John Goddard, late of Newport, dec., represented insolvent, and six months from this date being allowed by said Court for the creditors to present and prove their claims before said Commissioners, we will attend at the house of Peter P. Remington, on the last Saturdays in January, February and March, 1844, at six o'clock, p.m. for the purpose of deciding on the claims of the creditors on said estate, which shall be presented for allowance.

STEPHEN M. SIEDMAN, }  
JAMES LAWTON, }  
ABIEL SPENCER, }  
Newport, Sept. 4, 1843.

All persons indebted to said estate are requested to make immediate payment to P. P. REMINGTON, Adm'r.  
Newport, Sept. 7.

CHARLES COTTON.  
Newport Oct. 15, 1842.

### SPENCER'S Pills, Syrup, and Plaster.

THE numerous proofs daily received of the utility of SPENCER'S VEGETABLE PILLS, not only from professional men, but also from individuals, previously unknown to the proprietor, many of them guardians and instructors of youth, who speak from personal knowledge, together with the rapid sale, completely satisfies him that he has not been deceived. Those recommendations have fully sustained it as a certain cure for the headache, as also a sure remedy for many other complaints if used according to the directions which accompany them.

For sale by MARY TILLEY, No. 49 Spring street.

### LUCINA CORDIAL.

MAGNIN'S LUCINA CORDIAL, for the sure and speedy cure of incipient consumption, barrenness, impotency, leucorrhoea, white, gleet, obstructed, difficult or painful menstruation, incontinence of urine, or involuntary discharge thereof, and for the general prostration of the system, no matter whether the result, of inherent causes, or of causes produced by irregularity, illness, or accident.

The wide spread celebrity of this wonderful and inimitable cordial in both hemispheres is a sufficient guarantee for its quick and positive success in curing all the above affections and complaints. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude before taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervousness or looseness of the female frame, which is the only cause of barrenness, and which, prior to Dr. Magnin's discovery, was considered to be incurable.—And it speedily removes the impediments produced by prostration, which frequently determine from getting married. Language, indeed, cannot do justice to the merits of the Lucina Cordial which is regarded by the heads of the faculty in all parts of the world as one of the most important medical discoveries of any age. Price \$3 per bottle. Sold at No. 142 Thames Street, Newport.  
March 18.

### PHYSIOLOGICAL MYSTERIES AND REVELATIONS.

Love, Courtship, and Marriage:  
An infallible Guide-Book for married and single persons, in matters of the utmost importance to the Human Race.

BY EUGENE BECKLARD, M. D.

For sale at No. 142 Thames Street Newport. Price 75 cents.  
March 18.

### The Most Highly Approved MEDICINE NOW IN GENERAL USE FOR COUGHS, COLDS, AND all diseases of the Lungs.

THE VEGETABLE PULMONARY BALSAM is believed to be the most popular Medicine ever known in America, for coughs, colds, asthma or phthisis, consumption, whooping cough, and Pulmonary affections of every kind.

Extracts from Certificates.  
Dr. Samuel Morrill of Concord, N.H., writes that he is satisfied the Vegetable Pulmonary Balsam is a valuable medicine, having been used with complete success in cases which had previously resisted the most approved prescriptions.

Dr. Truman Abell of Lempster, N.H., writes that he confidently recommends its use in all complaints of the chest, as equal, if not superior to any other medicine within his knowledge.

Dr. Amory Hunting, of Franklin, Mass., writes that after having prescribed the usual remedies without relief, and having consulted with several eminent physicians, he has found the Vegetable Pulmonary Balsam to have had the desired effect, and recommends it as a safe, convenient and efficacious medicine.

Dr. Thomas Brown, of Concord, N.H., writes that to his knowledge, it has never disappointed the reasonable expectations of those who have used it.

The public are particularly cautioned against the many Counterfeits or Imitations, which have partially or wholly assumed the name of the genuine article.

Be assured that it is not genuine unless one or both of the written signatures of SAMUEL REED or WM. JON'S CUTLER, are found attached to a yellow label on a blue envelope. (All labels of and after the date of Dec. 1839, will have the written signature of Wm. Jon's Cutler.) Prepared by REED, WING & CUTLER, (late Low & Reed,) Wholesale Druggists, 54 Chatham Street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. Price 50 cents.  
October 29, 1842.

The above Balsam is for sale in Newport, by R. J. TAYLOR, Agent

FANCY and Staple Dry Goods, at reduced prices, at No. 132, by J. M. COOK & CO.

### DR. PETERS' Medicated Lozenges.

PETERS' COUGH LOZENGES are now rapidly superseding all other preparations for the relief of coughs, colds, asthma, whooping coughs, tightness of the chest, bronchitis, and similar pulmonary affections.

Peters' Cordial Lozenges  
Are a specific for the relief of nervous or sick headache, lowness of spirits, or melancholy, languor and debility, either from previous disease or too free living, tremors, spasms of the stomach, irritability of the nerves, hysterical affection, drowsiness, cholera morbus, sense of fatigue and palpitation of the heart. From their efficacy in the relief of headache, they are called by many the Headache Lozenge.

Peters' Worm Lozenges.  
These are the desiderata so long required. They are so perfectly pleasant to the taste and gentle in their operations, that they may be fearlessly administered to the youngest infant, and yet no medicine heretofore discovered can be named in comparison with it as a destroyer of worms.

Peters' Cathartic or Health Lozenge.  
These lozenges will be found perfectly efficient, speedy, and safe in their operation. They purify the system, purge the blood of every noxious substance, restore the functions of the whole animal economy, and leave the individual with a reinvigorated constitution. As an alternative medicine, Peters' Health Lozenge stands unrivalled. On the approach of warm weather in the Spring they may be taken by all with decided benefit, often preventing a protracted sickness.

Peters' Vegetable Shilling Strengthening Plaster.

This is not only the cheapest, but the best, neatest, and most comfortable plaster in existence.

Peters' Shilling Plaster is an easy and most effective remedy for pain in the breast, side, or stomach, weakness or pain in the chest, loins, or back, stiffness of the neck, affections of the limbs or joints, whether produced by rheumatism or other causes, neuralgic pain of the head or stomach, piles, colds, catarrhs, liver complaints, weakness of the spine, prostration to break out in blaes and pimples, listlessness of the frame, and for general debilitation.

Let any person afflicted as above try one of Peters' Shilling Plasters, and we will venture to say that he could not be prevailed on to discard it again, for ten, or most probably for a hundred dollars. Price 12 1-2 cents.

To the Whole World?

PETERS' PILLS.—It is admitted by all who have used them (and who has not?) that Dr. Peters' Vegetable Pills are the most unrivalled medicine ever discovered by the ingenuity of man. They are a sovereign cure for the following complaints—Yellow and bilious fevers, fever and ague, dyspepsia, croup, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spine, piles, colic, female obstructions, heartburn, furred tongue, nausea, distention of the stomach and bowels, incipient diarrhoea, flatulency, habit of costiveness, loss of appetite, bloated or sallow complexion, and all cases of torpor of the bowels, where a cathartic or aperient is needed.

They are exceedingly mild in their operation, producing neither nausea, griping or debility. Price 25 cents a box.

Come one, come all, and have your wills, By Patronizing PETERS' PILLS.

For sale at No. 142 Thames st. Newport, by CHARLES N. TILLEY, Agent.  
March 18.

### Those Laboring Under

sickness can at once relieve themselves from the thousand maladies that flesh is heir to if they will only follow the counsels of nature, and take the medicine which best assists her in her operations. That medicine is the Vegetable Life Medicines of Dr. Moffat. The wonderful and miraculous cures which his Life Pills and Phoenix Bitters have everywhere performed, place them before all other medicines ever offered to the public. Composed entirely of vegetable substances they overcome the disease without corrupting the blood or weakening and destroying the constitution. Their nature is such that when taken into the stomach they are digested like other food, and are distributed throughout the whole system; giving additional strength to the sound parts, and purifying and restoring the weak and diseased. They not only act as a purgative in cleansing the bowels of all impurities, but they open the pores of the whole body, assist and promote all the animal secretions, and give a healthy vigor to the whole system. This is not idle declamation uttered without truth and only for effect, but is fully corroborated by innumerable letters and certificates which daily pour in upon the proprietor of the Vegetable Life Pills, from thousands who are grateful for a recovery of their health—a recovery which all other remedies had failed to procure them, and which they despaired of ever receiving. It is thus fully proved that the operations of nature are simple, and that disease of all kinds may easily be eradicated if the right course is taken to effect their cure. That course, we repeat, is to use Dr. Moffat's Life Pills and Phoenix Bitters. The beneficial results they produce on the human system are apparent as soon as their use is commenced. A single box cannot be taken without giving a relief to the sufferer which will convince him of their efficacy. All who value their health, their time, and their money, will at least try the Life Medicines when attacked with sickness. Being composed entirely of vegetables no injury can possibly arise from such a trial, and once tried they will forever supersede the necessity of a physician's services, or a physician's exorbitant charges.

These Valuable Medicines are for sale at R. J. TAYLOR'S  
Medicine Store No. 148, Thames-street, Newport, (R. I.)  
April 1, 1843.

### NEWPORT DYE-HOUSE.

John H. Clegg  
SILK, COTTON, and WOOLEN DYER.

WOULD respectfully inform his friends and the public, that he has taken the DYE HOUSE, formerly occupied by J. Viner, situated in Tanner street, where he is prepared to dye and finish at 10 days notice in the best manner, the following articles, viz:

Broadcloths, Silks,  
Cassimeres, Crapes,  
Carmosins, Satins,  
Circassians, Pongees,  
Bombazines, Hosiery  
Gloves, &c. &c.

Also, permanent colors on carpet yarns, merino, circassian, bombazine, and crape dresses; gentlemen's woollen garments, such as dresses, frock and great coats, suits, vests, and pantaloons—died and pressed without ripping.

He will also clean gentlemen's woollen garments of every description, in a neat style—merino and Cashmere shawls cleaned and whitened, without injury to the border—carpets and woollen table cloths cleaned also.

All articles left at the Dye House in Tanner Street, or the following Agents will receive prompt attention.—Mrs. Ann M. Eddy, next north of the Perry Factory. A. M. Thomas, Wickford, John Hedley, Portsmouth.  
February 19, 1842.

### FALES CYPRIAN HAIR TONIC,

For the Growth, Preservation  
and Restoration of the Hair.

NO matter how bald a person may be, a growth of hair will be produced, and as naturally too as herbage grows on the plain, or the lily in the valley. This Tonic is warranted to cleanse the hair from Dandruff, and every other accumulating substance. Is your hair dry and falling off?—The Tonic will moisten and fix it firmly in the head. Is your hair thin or your head bald?—The Tonic is warranted to satisfy the largest desires in thickening the hair in the first case and covering the Bald Head with natural hair, in the second.

It is composed of these remedial agents that restore the skin at once to a sound and healthy condition, when thus restored, you will soon discover on the head, a short soft and beautiful growth of young hair, gradually increasing in length, till it becomes like your other hair was before you began to lose it.

FALES' COUGH, WORM, HEADACHE and Diarrhoea or Dysentery LOZENGES are safe, certain and agreeable remedies for the diseases for which they are recommended.

Numerous, speedy and surprising cures have been effected by their use, hence their popularity.

DYOTT'S ORACLE OF HEALTH, (Philadelphia) Says that Fales' Medicated Lozenges are considered by those who have used them, to be far superior to Sertman's or any other introduced into that market.

THE COUGH LOZENGES, are beneficial in all cases of common colds, hooping cough, asthmatic affections, inflammation of the throat and lungs; they are also particularly beneficial for the croup, and a very good substitute for the celebrated HIVE SYRUP, COUGH CANDIES, QUINCY CORDIALS, PULMONARY BALMS, &c.

THE WORM LOZENGES, are a safe and sure remedy for Worms. Two or three is a dose for very small children, and five or six for larger ones.

THE DYSENTERY LOZENGES, are a certain and agreeable remedy for Diarrhoea, and Bowel Complaints of Children—Full directions as to diet and manner of taking them, accompany each box.

THE HEADACHE OR CAMPHOR LOZENGES, are beneficial in cases of nervous headache in febrile affections of a typhus character. They are useful in Rheumatism and peripneumony; are certain in eruptive diseases, to favor the eruption or bring it back when it has suddenly receded from the skin, as sometimes happens in measles and small pox.

N. B. Be sure that J. J. FALES, M. D., Boston, is on the side of the Box that you buy.

For sale in Newport, at the Confectionary and Variety store of

T. STACY, Jr.

July 1.
